## **ANOTHER LOOK AT THE LIFE OF PRIEST BONE STOYCHOV**

(Summary)

The author publishes in her article the marginal notes left by the hand of priest Bonne Stoychov of Belchin village. The notes are excerpted from three sources – “The Gospel of Enlightenment” (1856) and “New Testament” (1859) from the collection “Bulgarian Old Printed Books 1806–1878” of the National Library “St. St. Cyril and Methodius “ and from a book with an unknown title kept in a church in the village of Belchin. An attempt is made to present Bonne Stoychov as an author of marginal notes by his choice of topics in them and his appraisal of their value expressed in his decision to rewrite some of them. The presented source material gives an opportunity to outline the personality and the life path of a Bulgarian priest – Bonne Stoychov.
